**Product Data Sheet: Your Product Name**
Your Product Data Sheet presents a summary of your product, it's features, and it's benefits. It provides an easy way for you to introduce your product to potential investors and customers quickly and easily. It is essential that it answers the basic questions: What is it? What does it do? What value does it offer?

Use a full two pages for your data sheet. Provide an short, engaging narrative introducing your product in addition to the items below. Feel free to modify this set-up to meet your needs to describe your product fully and accurately.

Include a complete list of features:
• It slices
• It dices
• It folds
• It spins
• It flies

Include a list of environmental benefits:
• It will reduce waste by x%
• It will reduce energy consumption
• It is biodegradable
